Listen girls, it's up to us We've got a lot to do,
The Boys are going over, and they'll
Listen girls, we'll cast aside the Paint and Powder Puff,
The girl behind the Plow they're thinking, al-

Stay till they get through, And now's the time for ev'ry girl to show her Yankee grit, For
The thought the work is rough, We'll keep the Factories running, we'll make ammuni-
tion too, And

ev'ry girl must do her little bit,
They'll tell us that we can't, we know we
ev'ry boat will have a lady crew,
There'll be a girl conductor on each

can,
And a girl will take the place of ev'ry man;
car,
And by jingo there'll be ladies tending bar;
Chorus.

We'll keep things going till the boys come home, Won't we girls? Bet your life, every sweet-heart and wife, Will do her bit for Yankee Doodle, We'll take care of all the Boo-dle, Won't we girls? You bet your life, Mother's taking Father's job he was a steeple Jack, She wears a pair of Overalls, that button up the back, And she'll have a "Rip-ping"

You bet your life, Aunt Priscilla just to show she couldn't hold a loof, Now runs an elevator isn't that sufficient proof, And the other night she

time some day when she climbs up a stack! But we'll keep things going till the boys come home.

got mixed up And ran it through the roof! But we'll keep things going till the boys come home.
Chorus.

We'll keep things going till the boys come home, Won't we girls? Bet your life, every sweet-heart and wife, Will do her bit for Yankee Doodle, We'll take care of all the Boo-dle, Won't we girls?

You bet your life, Mother's taking Father's job he was a steep-le Jack, She wears a pair of Overalls, that button up the back, And she'll have a "Rip-ping"

Miss Priscilla just to show she could't hold a loof, Now runs an elevator isn't that sufficient proof, And the other night she time some day when she climbs up a stack! But we'll keep things going till the boys come home.
